

INTRODUCING THE

COLOUR RANGE

FUN | FUNCTIONAL | FLEXIBLE

BRINGING COLOUR TO THE CLASSROOM AND OTHER GREAT PLACES.

At Office Line, we've teamed up with a colourful collection of the world's top suppliers of great-looking and top-performing educational furniture.

The result is our Colour Range of fun, functional and flexible furniture sourced from around the globe. We've chosen these exceptionally high-quality products for their bright, vibrant colours, their ergonomic and interesting designs and their versatility to help you create a complete fit out, an exciting new space or liven up an existing, but tired, area.

Just like us, our suppliers are reputable companies selected for their consistent supply and passion for quality, design and functionality.

Office Line. Top of the class in educational furniture.

Office Line is an Australian-based company who has been supplying kindergartens, schools and colleges with quality furniture and fittings since 1988. The furniture we supply scores top marks for environmental performance, strength, durability and ergonomics.

We can provide everything from a few chairs and desks to a complete classroom, laboratory or performance area fit out. And as we're free to choose from a wide selection of high-quality products, we can always find the most suitable solution at the most competitive price.

An extensive range of Office Line products are regularly audited by reputable international organisations including AFRDI and GECA. You can be assured products carrying this certification adhere to strength, durability, stability and safety.

THE SPACEFORME EN CHAIR.

The best of British.

Spaceforme is one of the UK's leaders in educational and event furniture. We love their products because they're well-designed, superbly built and seriously robust to meet the tough challenges of any classroom.

One of their most popular products is the EN Chair. It's made in the UK and over a million have been sold throughout Europe.

It's elegantly designed to look good in any environment, ergonomically shaped to encourage good posture and increased attention, and is made with environmentally responsible materials.

The latest edition to Spaceforme's range is the highly innovative EN Floor Chair, winner of the prestigious GESS Education Innovative Product Award.

EN Chairs are available as stackable one-piece units, or with a range of traditional metal legs and base options.

EN FLOOR CHAIR

REQUEST A QUOTE.

Sitting on the floor has never been so comfortable. The EN Floor Chair offers support from the ground up to promote good posture and keep students comfortable and engaged from a stable sitting position.

It provides all the benefits of our EN Classic chair without the legs! Teachers have commented that it actually encouraged them to sit on the floor during carpet activities, providing better interaction with the children on their level.

The EN Floor Chair is perfect for carpet time in educational spaces, outdoor activities and general use. Its a multipurpose chair that provides a better comfortable sitting position. Raising the seat off the ground prevents fingers getting caught when moving in the chair. The uses for the floor chair are endless.

Children with learning difficulties such as autism, need to feel that they have contact with an item. Feedback from teachers in the educational industry have confirmed to us that it has enabled them to improve concentration and security for the children.

EN ONE

REQUEST A QUOTE.

Like the EN Classic the EN One is the perfect chair for the modern seating environment, manufactured to a high specification to meet the needs of a high use chair. Ergonomic shell support is provided to the lower back, flexing naturally with the user's movement. An extremely versatile chair with exceptional stacking capability up to 21 chairs within a 2 metre height.

FEATURES

- › Ergonomically designed chair
- › Streamline design – from a single material – thus the EN One name
- › Lightweight and strong – glass filled polypropylene ensures greater strength and durability, with lighter weight

- › Sustainable materials – uses less materials than any other chair in its class. Manufactured from fully recyclable materials
- › Space saving stack-ability – the chair stacks easily for efficient storage, up to 21 chairs within a 2 metre height

COLLABORATIVE + COLOURFUL SPACES

Inspiring spaces with fun and functional soft furnishings.

The team at Office Line pride themselves on providing a broad selection of styles that meet a multitude of requirements. Our soft furnishings range is designed to be classic or fun dependent on your needs. With a beautiful selection of fabric choices to suit your space and provide comfort for areas such as reception, visitor, library and many other uses.

All products are manufactured locally to quality grade specifications. We have an exceptional eye for quality and function when it comes to developing furniture. Our designs are highly innovative and creative making them perfect for the contemporary classroom, library and other locations too!

We believe that bringing colour and clever design to a learning space creates an environment which sparks students' creativity and increases productivity.

Sofas, ottomans, tables, benches, walls, whiteboards and bookcases are just some of the products we offer in an amazing range of shapes, sizes and colours.

- › 1200 x 700 whiteboard (magnetic)

GRATNELLS.

Storage with style.

For over 40 years, family-run UK company Gratnells has been the leading name in storage in over 68 countries. Their award-winning educational trays are famous for their quality, safety, strength and durability. Made from recyclable polypropylene, their trademark trays come in four different heights and a whole spectrum of colours. Last year, they sold over three million.

Gratnells also makes a great range of frames, trolleys, lids and inserts to match their trays making them an ideal storage solution for anything from kindergarten toys, books and art supplies to a fully-equipped secondary school science lab and much more.

TRAYS + CONTAINERS

REQUEST A QUOTE.

Our international award-winning trays are BSI tested and passed for heavy educational use. And even though they are built to last they are all fully recyclable too. Versatile organising system for all your storage requirements.

FEATURES

- › Nesting or stacking (by reversing)
- › Flat bottom for easy cleaning
- › Wall thickness of 2.4mm for heavy school use
- › Flange 12mm for maximum tray support on side runners
- › 11 reinforcing ribs to prevent squeezing and falling through when heavily loaded
- › Ribs on base to minimise friction on work surfaces when removed from cabinets

- › Side stops at front, prevent tray being pushed through
- › Clip on lids are designed to enable trays with lids fitted to still be used in cabinets
- › Tray Inserts are available for Shallow Trays Model T1
- › Trays can be fitted to the underside of tables using runners

USES

- › Suitable for any space and many types of products – particularly liked in education and offices

SMARTCASE®

REQUEST A QUOTE.

The SmartCase® is everything you'd expect from a Grattrells tray. It's built for heavy educational handling and fits into the same runners used on all our frames and trolleys. But the SmartCase isn't just another tray. Thanks to its moulded handle, you can carry it around with you wherever you need to go, just like a briefcase. So now, when it comes to items that you need to keep safe in the classroom and outside you've got the perfect answer to mobile storage.

FEATURES

- › Heavy Duty
- › Fits into runners in housings and frames
- › Secure closure
- › Mobile – like a briefcase with moulded handle
- › Custom inserts available

USES

- › Particularly suitable for education, architectural/design or museum/art storage

RECYCLABLE MATERIALS USED

POWER TRAY AND POWER TROLLEY

GRATNELLS – A4 METAL

REQUEST A QUOTE.

Heavy duty metal frame and shelves suitable for heavy item storage – includes flexible shelf fixture system on inside of frame. Fully tested for the education sector these shelves are particularly suited to science laboratories, classrooms, art rooms, staffrooms and of course also for general purposes elsewhere.

Create shelves in varying heights and configurations or use the wide shelves without divisions to create versatile heavy duty trolleys.

Call Office Line for advice or to develop layouts tailored to suit your specific requirements.

FEATURES

- › Heavy duty
- › 25mm square steel tubular frame
- › Slot fixings in frames suit all tray sizes, shelves and drawers for total flexibility

USES

- › Predominantly laboratories, libraries or product showrooms – or where heavy duty performance applies

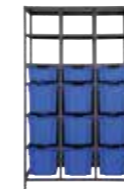

SPECIFICATIONS

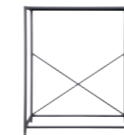

GRATNELLS – A4 TRAY – METAL FRAME COMPONENTS

GRATNELLS – A4 TRAY – METAL FRAME CONFIGURATIONS

Model GTS310
1850h – 6 single column shelves + 3 deep + 9 jumbo

Model GMWS3
1500h – frame only

Model GLS81
825h – frame only

Model GLM73
725h – trolley only

The most commonly used versions of this system are the full height with divisions, tray filled, triple width, in stationary use, and the low height with divisions, tray filled triple width, used as trolleys.

At Office Line we know this system well and can demonstrate here a few of the possible configurations that may suit you.

The configurations can be determined relative to your preferred A4 tray combination, with or without divisions. Frames without divisions operate well as shelving/storage.

The system comes 420mm deep, is available in 4 heights 725, 850, 1500 and 1850, and in 370 (single), 710 (double) and 1055 (triple) widths. Diagonal cross bars to the taller frames add rigidity and adjustable feet aid alignment.

With castors (up to 1500) use doubles into a sturdy and versatile trolley.

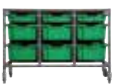

Since the system is so comprehensive we suggest you contact Office Line with your specific requirements as we will be pleased to advise the best configuration to suit you.

Model GMWS32
1500h – 2 triple shelves + 6 timber trays

Model GLS813
825h – 1 deep + 2 extra deep

Model GLM732
850h – 3 shallow + 6 deep

CASTORS

Castor without brake
65 mm diameter

Castor with brake
65 mm diameter

Suitable to fit to frames up to 1500 high.

Most commonly used for science laboratories and science rooms this system becomes even more versatile when combined with our Custom Cabinet products.

At Office Line we know this system well and can demonstrate here a few of the possible configurations that may suit you.

The configurations can be determined relative to your preferred A3 tray combination, with or without divisions. Frames without divisions operate well as shelving/storage. Diagonal cross bars to the taller frames add rigidity and adjustable feet aid alignment.

The system comes 485mm deep is available in 3 heights 790, 890 and 1850, and in 520 (single), 1010 (double) widths.

With castors (up to 890) use doubles into a sturdy and versatile trolley.

Single double or triple width shelves are available.

Since the system is so comprehensive we suggest you contact Office Line with your specific requirements as we will be pleased to advise the best configuration to suit you.
